The World Leader in Cork

- The largest global exporter of cork
- The oldest cork company in the world in continuous operation (1870)
- The World's largest cork processing company
- > Presence in 26 countries in 5 continents
- The biggest distribution network in the sector (56 distribution companies)
- Diversified client base, with 30,000 customers
- > 93.7% of sales are made outside Portugal
- > Sales to more than 100 countries
- Over 4,800 workers (close to 1,400 outside Portugal)
- > Internal structures of Research & Development in all Business Units: 10.2 M€ R&D+I investment in 2024

Mission, Vision and Values

Mission

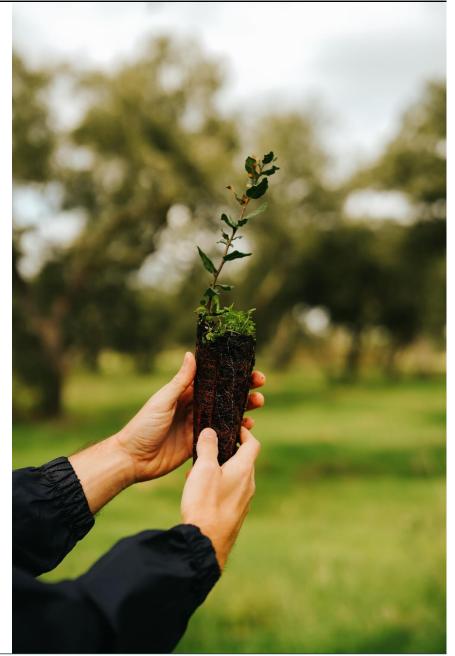

Add value to cork, in an ethical, competitive, distinctive and innovative way that is in perfect harmony with nature

Vision

Be a sustainable company, providing suitable value for the capital invested while promoting social equity, diversity integration and environmental safeguards, with differentiating factors at product and service level

Values

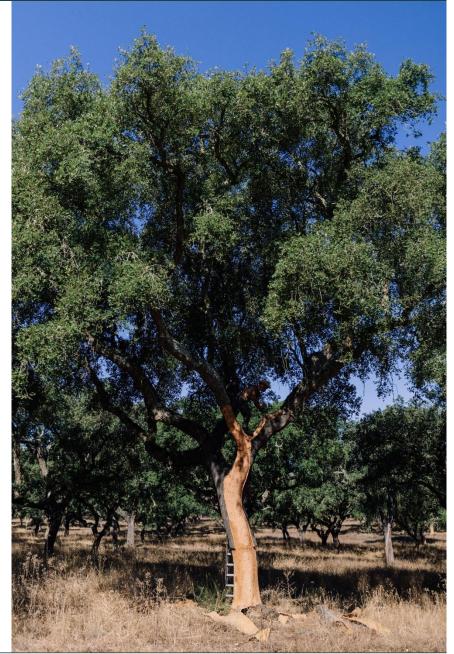

Pride; Ambition; Initiative; Sobriety and Attitude

Raw Material: Cork

The outer bark of the *Quercus Suber L.* (cork oak tree)

- The process of natural cork extraction is called harvesting, a highly specialized process that does not harm the tree
- It takes, on average, 25 years before a cork oak can be harvested for the first time
- The following harvestings are made at intervals of, at least, **nine years**, always between May and August, when the tree is at its most active phase of growth
- It is only after the **3rd harvest 43 years** that the cork bark achieves the standards of quality required for a natural cork stopper
- A cork oak tree *can live up to 200 years*, during which time it may be harvested 15 to 18 times

Cork's own Nature

Cork is a biodegradable and sustainable material, 100% natural, renewable, recyclable and reusable

- Acoustic insulator
- > Thermal effective
- Impermeable to liquids and gases
- > Elastic and compressible
- High temperature resistant

- → Resilient
- Very light
- > Hypoallergenic
- Shock absorbent
- > Soft touch
- > Warm feeling

Cork Oak Forest

Annual cork production and cork forest area

Biodiversity and Ecosystem Services

Cork oak forests' multifunctional production system provides a series of ecosystem services (provision, regulation and cultural)

- Natural CO₂ capture and storage
- > Act as a **barrier against fires**
- » Hydrological regulation and soil protection, halting desertification risk
- Generate high rates of biodiversity
- > Create employment and wealth
- Unique landscape and part of a cultural identity with its own uses and traditions

Sustainable Value Creation

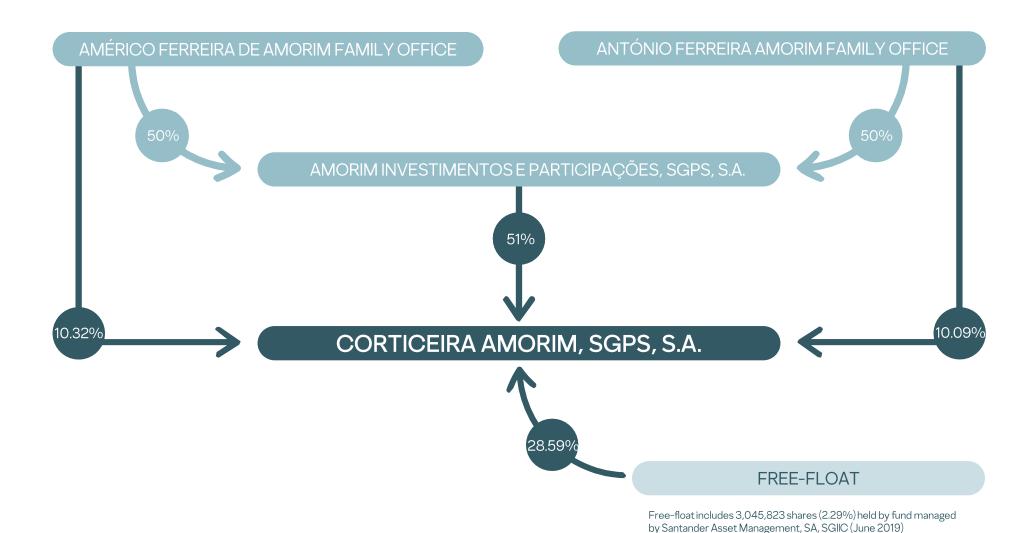

Family-owned business with a strong track record of sustainable growth

Fourth generation committed to foster investment and adopt best practices to address future challenges and to enhance long-term growth, profitability and positive impact

1870 - 1960	1960 - 1990	1990 - 2000	2000 - 2019	2019 - PRESENT

Vertical Integration

Maximizing the value of resources through product diversification

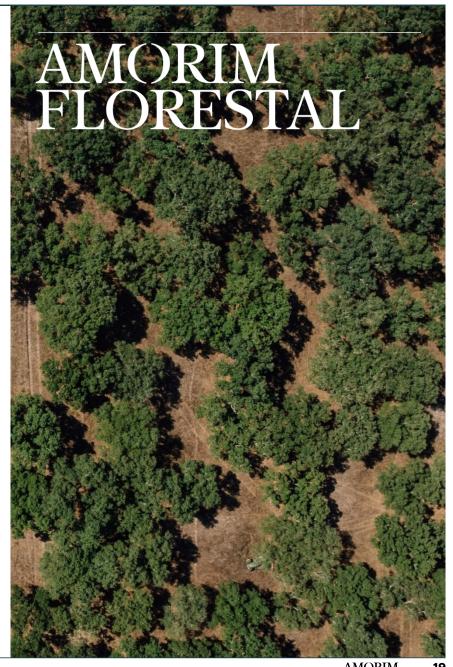

A new Organisational Model, bringing together Amorim Cork Composites, Amorim Cork Flooring and Amorim Cork Insulation, implemented from January 2025

Key Figures, 2024

231.6 M€ in turnover

- **1.2 million** square meters of cork yards
- **8,181** hectares of owned agroforestry land
- 3 Agroforestry Units
- **13** Raw Material Preparation Units
- > Development of agroforestry projects in its owned estates
- Responsible for the sourcing, purchase, stocking and preparation of cork and then to supply it to the other business units
- Depth knowledge of cork, the different production areas and the forestry estates
- > Extensive experience from the relationship with forest producers, developed over many years
- Areas of R&D+l intervention: product quality, efficiency of industrial and forestry processes

Amorim Florestal AMORIM

Key Figures, 2024

732.3 M€ in turnover

5.3 billion closures sold annually (21 million /day)

21,000 active clients, in 85 countries

Main markets: France, Italy, USA, Spain, Portugal, Germany, Chile

28 Industrial Units

40 Distribution Companies

- > R&D+I with special focus on sensory performance
- » Cork stoppers offering non-detectable TCA performance
- » Wide portfolio of products with negative carbon footprint*
- Innovation in industrial processes and product development

AMORIM CORK

Business Segments

Still Wine

- Wide range of high-quality cork stoppers for still wines, as different wines demand different solutions
- Cork stoppers are divided into several categories, according to different sizes, formats and technical specifications according to each bottle and drink

- Champagne and sparkling wine cork stoppers, with high levels of physical, chemical, and oenological performance
- An expanded cork agglomerate or micro granulated body and one or two natural cork discs at the end, these corks are the ideal closure to sustain the higher pressures existing inside the sparkling wine bottles

Spirits

- Variety of stopper solutions, responding to most indepth needs and aspirations of the spirits industry
- Specialized team dedicated to the design, engineering and production of exclusive capsulated cork closures for the world's most celebrated brands

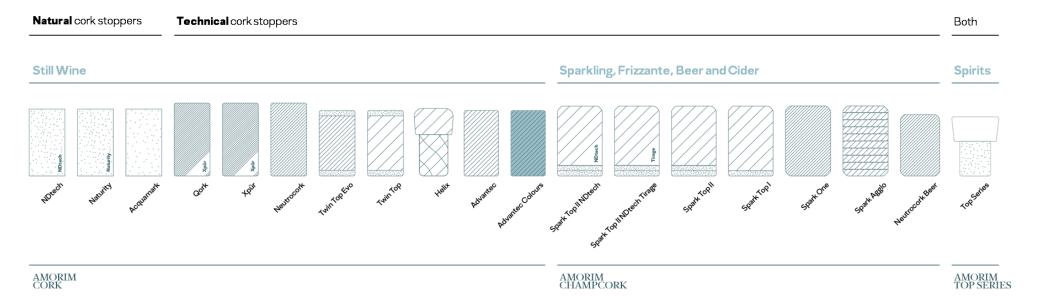

21

Amorim Cork
AMORIM

Products' Portfolio

Unique portfolio of cork stoppers covering all segments: still wine, sparkling wine and spirits

Amorim Cork
AMORIM

Non-detectable TCA Performance

Breakthrough technologies to deliver non-detectable* TCA performance across different cork stoppers price points

Naturity[®]

delivers premium value with superior neutrality, maximising the performance of natural cork stoppers

NDtech[®] Sparkling

a quality control service using a high precision individual screening technology and that, when requested by the client, works in tandem with Naturity[®], maximising the outputs of this nondetectable TCA measure

23

Xpür®

allows for a robust and deeper cleansing of cork's cellular structure, delivering non-detectable TCA performance and eliminating other volatile substances

*Releasable TCA content at or below the 0.5ng/L quantification limit; analysis performed in accordance to ISO 20752.

Amorim Cork AMORIM

Key Figures, 2024*

213.1 M€ in turnover

More than **500** applications | products

Main markets: USA, Germany, Portugal, France

Sales to close to 90 countries

6 Industrial Units

16 Distribution Companies

- Reuses and reinvents materials in a wide array of areas, having adopted circular economy practices since 1963
- Researches, develops and produces high-performance cork solutions for applications in multiple industries
- Incorporation of various raw materials into the products, aiming to innovatively respond to competitive market demands

ESG Strategic Pillars

Ethics and Integrity

Promote the environmental features of the products and the Cork Oak Forest

Climate Change

Reduce the environmental impact of operations by adopting renewable, affordable and efficient solutions.

Promote well-being and equal opportunities for all

Labour Relations. **Employment and DEI**

Talent Management

workers.

Encourage training and personal and

professional development for all

Create an inclusive and diverse working environment, guarantee equal opportunities and fair pay, and adopt policies that eliminate discrimination and harassment in the workplace.

Value Chain

Reinforce responsible production and consumption, preferably selecting suppliers that adopt good ESG practices.

economic performance

Promote R&D+I and leverage

鮋

solutions for all.

Consumers Ensure product safety and quality, support research, development and

innovation and promote sustainable

Biodiversity and Ecosystems

Circular Economy

Apply the principles of circular

economy through the reduction of

regeneration of natural systems.

waste, extend the life of materials and

Preserve the cork oak forest and ecosystem services by increasing knowledge, mobilizing resources and proposing initiatives.

Safety, Health and Well-Being

Ensure the safety, health and physical and psychological well-being of all workers, and promote appropriate work environments.

Community / Society

Leverage economic growth in a sustainable and inclusive way, ensuring efficient production and decent work for all.

ESG Ambition: 2030

(Portuguese operations | baseline 2020)

Zero carbon footprint (scopes 1 and 2)

33.3% women workers

100% controlled renewable electrical energy

33.3% women in management positions

20% energy efficiency

Zerorecordable
work-related injuries

40% water efficiency

100% workers with training

Zeronon-renewable virgin packaging materials

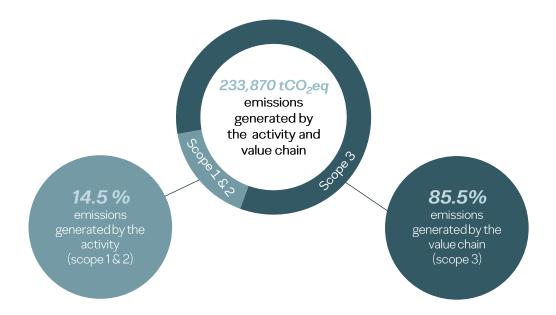

1 million cork oak trees planted (FIP)

Climate Change

Reduce the environmental impact of operations by adopting renewable, affordable and efficient solutions

- > Increase the use of renewable energies
- Improve energy efficiency
- » Reduce negative environmental impact

Biodiversity and Ecosystems

Preserve the cork oak forest and ecosystem services by increasing knowledge, mobilizing resources and proposing initiatives

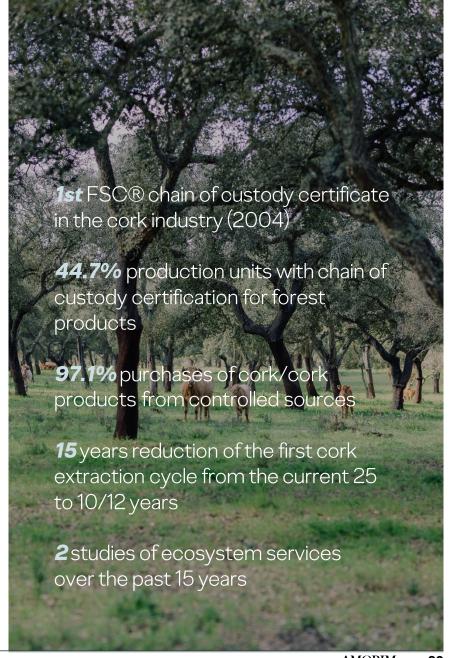

Reinforce a responsible Supply Chain

- > Close relationship with cork producers
- > Purchasing cork from controlled sources
- > Promotion of forest management certification

Developing a Forestry Intervention Project

- > Investigation: more resilient cork oak trees (climate change, pests and diseases)
- > Intervention: new planted areas and increase density of existing forests, using innovative processes and technologies
- Induction: share knowledge and technical support to forestry producers

Valuing and increasing awareness of ecosystem services

Forestry Intervention Project

Leading the implementation of an innovative management model in partnership with forestry producers, research institutions and local authorities

- Reduction of the first cycle of cork extraction (from current 25 years to half of that time)
- Fighting pests and diseases (cork oak tree plus)
- > **Technical support** to cork forest owners
- > **Proactive** approach to the discussion of policies
- > Three forestry estates under management
 Herdade da Baliza (2018), Herdade de Venda Nova
 (2019) and Herdade de Rio Frio (2021/2022)

Circular Economy

Apply the principles of circular economy through the reduction of waste, extend the life of materials and regeneration of natural systems

- Integrated production process that reuses all by-products associated with cork processing
- Reducing the generation of non-cork waste and promoting its valorization
- Extending the life of materials through industrial symbioses
- Recycling of cork products at the end of their life-cycle

Labour Relations, Employment and DEI

Create an inclusive and diverse working environment, guarantee equal opportunities and fair pay, and adopt policies that eliminate discrimination and harassment in the workplace

- > Ensure equal access to opportunities
- > Prevent all forms of discrimination
- > Protect labor rights

Equality plan:

Inclusive and equal treatment and opportunities guide Human Resources policies, applying to recruitment, training, career evolution, and salaries

The goal is to increase the number of women in the workforce and in management positions through policy reviews, regular follow-ups, awareness and training

Talent Management

Encourage training and personal and professional development for all workers

- Provide training for all
- Value learning and evolution through recognition and compensation practices based on merit and free from bias

Main initiatives:

- Leadership and professional development programs, such as Lead Up, Executive Coaching for Leaders, and Knowledge for Growth
- > **Talent programs,** such as Cork Up, aimed at highpotential employees for more targeted development
- **E-learning** with over 200 courses in various areas, increasing training accessibility and flexibility
- Succession planning and internal mobility, preparing employees for new roles within the company

Safety, Health and Well-Being

Ensure the safety, health and physical and psychological well-being of all workers, and promote appropriate work environments

- > Promote safe and secure work environments for all workers
- > Provide access to essential quality health services
- > Reduce the number of work-related accidents

Main initiatives:

- Forums/committees and meetings with the participation of employees and/or their representatives to monitor performance and set targets
- > Forum on safety at work: sharing, debate and adoption of a set of best practices in all Business Units

Value Chain

Reinforce responsible production and consumption, preferably selecting suppliers that adopt good ESG practices

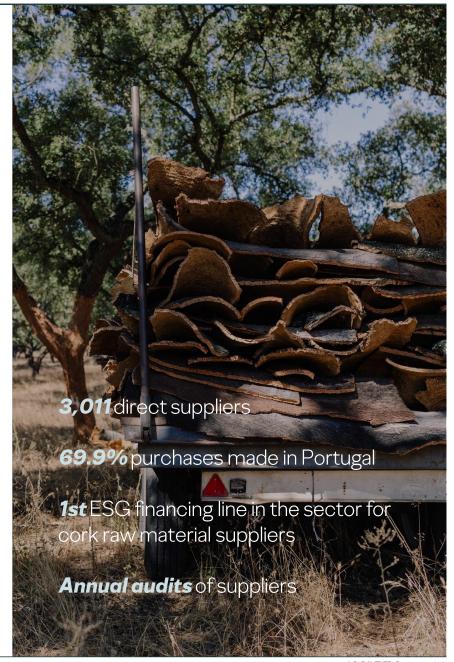

- > Eradicate forced labour and child labour worldwide
- Promote sustainable management and efficient use of resources
- Strengthen partnerships for sustainable development

Main initiatives:

- Code of Business Ethics and Professional Conduct
- Anti-Corruption Code of Conduct
- Code of Ethics and Conduct for Suppliers

Whistleblowing:

Multiple channels to report irregularities, ensuring protection for all good-faith reporters, with independent review

Customers and End Consumers

Ensure product safety and quality, support research, development and innovation and promote sustainable solutions for all

> Amorim Cork:

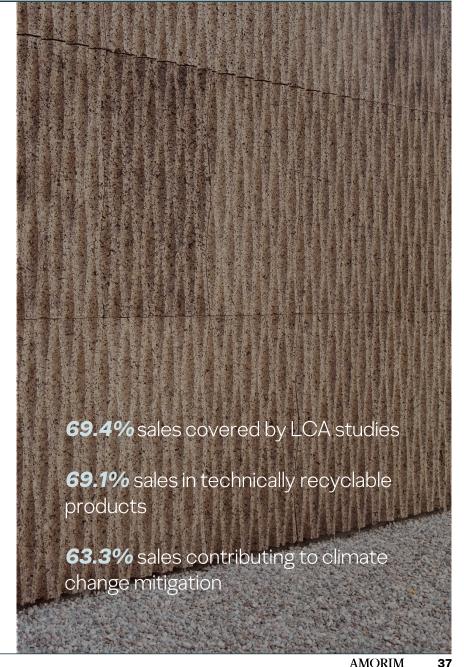

1st choice for clients seeking better quality and climate change mitigation

> Amorim Cork Solutions:

100% floors and coverings with indoor air quality certification whether TÜV-PROFICERT or French certification for VOC (A+) and contributions to sustainable **construction certifications**, **LEED / BREEAM**

>500 applications for various sectors, allying innovation and circular economy practices

0% additives in insulation products, that are simultaneously 100% natural, recyclable, reusable and long-lasting

Community/Society

Leverage economic growth in a sustainable and inclusive way, ensuring efficient production and decent work for all

Having an impact on society and promoting its balance through active and long-term cooperation

- Promoting social balance: supporting well-being, respect for human rights, and social inclusion for people and communities where it operates
- > **Supporting culture and knowledge:** promoting the values of biodiversity and the circular economy through cultural and education initiatives
- > **Strengthen socioeconomic impact** by providing the dissemination of value, knowledge and innovation in the cork sector to society

Environmental, Social and Economic Impact

The quantified indirect and induced impacts show that impact goes way beyond the financial statements

production multiplier in the Portuguese economy
